Dissertation Mentorship Program
David Schwegman, a Ph.D. candidate in public administration at Syracuse University, is the 41st participant in the Center for Economic Studies (CES) Dissertation Mentorship Program. His RDC project uses the American Housing Survey (1984-2005) to analyze the effect of New York’s Homestead Tax Option on rental housing costs and property maintenance. His mentor is Matthew Street, who is chief of the AHS branch.

Graduate students who use Census Bureau microdata accessed through the RDC for their dissertations are eligible for this program. Applicants must be U.S. citizens. Program participants are assigned at least one CES economist as a mentor, and they visit CES in D.C. to present their research and meet with CES staff. Information on applying for the program can be found at https://www.census.gov/ces/researchprograms/mentorship.html.

Data Update:
Social Security Administration data linked to survey data is now available through the RDCs. The following datasets may be requested by researchers:

- Detailed Earnings Record (DER) data matched to the SIPP and CPS
- Summary Earnings Record (SER) data matched to the SIPP and CPS
- Master Beneficiary Record (MBR) data matched to SIPP and CPS
- Payment History Update System (PHUS) data matched to SIPP and CPS
- Supplemental Security Record (SSR) data matched to the SIPP and CPS
- Master Earnings File (MEF) data matched to SIPP

Note that only the linked data are available, not the full administrative records. If you would like to know more about these datasets, please contact the RDC administrator, Nichole Szembrot.
